COMPANY OVERVIEW

Our Promoters basically lead the way of aquaculture in Surat around 23 years ago and have individually started cultivation of shrimp with 2 ponds. After continues efforts in various innovation in the field of aquaculture, shrimp farming, satellite farming etc decided to give the business a corporate shape and to accomplish the thought, Our Promoters who were individually engaged in culturing shrimps joined hands in 2009 and incorporated our company "Zeal Aqua Private Limited" to make the business scalable and reap the benefits of synergy.

In addition, the introduction of schemes of Government to allot coastal lands for aquaculture purposes to promote this industry and generate a source of revenue for farmers motivated our Promoters to have a vision to develop an advanced, sustained and fully integrated aquaculture system in Surat and also across India.

Our Company not only believes in growing in numbers of shrimps, but it believes in growing technologically and in an eco-friendly manner. The economics of shrimp farming is considerably dependent on feed performance. Hence, a primary objective of our company is to improve our product through the effective use of feed. Our product is evaluated on the basis of growth and feed conversion. Our Company believes in delivering the best quality shrimps, free from all kind of antibiotics and banned substances. To maintain the quality our Company follows S.O.P (Standard Operating Procedures).

Productivity, Quality and Minimizing environmental degradation is the priority for Company.

Zeal Aqua has become India's one of the leading aquaculture company and largest producers of shrimp in Gujarat.

Shrimp aquaculture gets a boost in India's Budget 2022 but seafood exporters wary of the relief

IN INDIA'S BUDGET 2022 ANNOUNCED ON FEBRUARY 1, THE IMPORT DUTY CUTS LOOK GOOD FOR THE AQUACULTURE INDUSTRY AND SEAFOOD SECTOR IN GENERAL, BUT CONFUSION PREVAILS IN THE INDUSTRY OVER THE IMPACT OF BUDGET 2022 NOTIFICATIONS ON ITS SEAFOOD SECTOR. INDIA'S FINANCE MINISTER HAD ANNOUNCED THAT "DUTY IS BEING REDUCED ON CERTAIN INPUTS REQUIRED FOR SHRIMP AQUACULTURE SO AS TO PROMOTE ITS EXPORTS," QUOTED THE NEWS SITE, WWW.MONEYCONTROL.COM.

Shrimp aquaculture gets a boost in India's Budget 2022 but seafood exporters wary of the relief

On the face of it, the report commented that it looks good for the aquaculture industry and the seafood sector in general. But it seems the concessions are only for a limited period, from February 2 to May 1, 2022. The picture is still unclear. The aquaculture sector accounts for a major share of nearly USD 7-billion annual seafood export from India.

The government said it has removed the import duty on shrimp broodstock, Artemia, frozen, krill, mussels and squid used as feed in hatcheries. It has also waived the import duty on shrimp feed.

According to sources in the Marine Products Export Development Authority (MPEDA), the move is expected to bring down the production cost of farmers who have been hit by rampant diseases in shrimp farming, lower prices for shrimp and Covid-19 related logistics problems.

The industry is heavily dependent on Artemia and shrimp broodstock, imported by hatcheries for post larvae production. The import duty on vannamei and black tiger broodstock and on Artemia was 10%. Removal of this duty will help the industry to import more for higher production. India imports around INR 300 crore (USD 40 million) of Artemia annually. Of the total shrimp exported from the country, nearly 90% is vannamei shrimp.

The 15% import duty on frozen krill, squid and mussels used as feed in shrimp hatcheries, has been removed. Both squid and mussels are available in India, but the hatcheries prefer to import pathogen free stocks.

The import duty of 5% on shrimp feed has been waived. The move was cheered by the aquaculture sector though it may impact local feed millers. Feed prices rose last year as soybean, the main plant protein meal in the feed, became costlier.

Of the targeted USD7.8-billion seafood export in the current year, the seafood industry has reached USD6.6 billion in the first three quarters. But the industry is rattled by freight hike increases, shortage of containers and lower incentives under remission of duties and taxes on exported products (RoDTEP). The incentive ranges from 0.5 to 2.5% against 5% earlier. The budget has not addressed these issues which concern the exporters.

CHAIRMAN'S WORDS

Dear Valued Shareholders,

On behalf of the Board of Directors, I am pleased to present Zeal Aqua Ltd.'s Annual Report for the financial year ended 31 March, 2022 ("FY 2022"). As you are aware and seeing the growth path of the Company in the last few years, I am of the view and can say that significant efforts have been put in by the Management in the growth of the Company. It may also be mentioned that the valuable guidance and support by the Independent Directors have helped the company in improving Corporate Governance standards.

The fiscal that drew to a close was one of the extreme challenges that truly tested the robustness of the business model and the resilience of the organisation to withstand the disruptive headwinds that derailed sectoral growth. I am happy to state that we successfully overcame these challenging times only to emerge as a more robust and resilient organisation.

In India, fisheries are a significant economic sector and offers vast opportunities for development. This is attributed to the diverse resources and potential of the country. Andhra Pradesh is the leading shrimp producer, accounting for more than 50% of the total output followed by Gujarat.

The Indian Government is promoting sustainable shrimp farming practices to produce high-quality 'sustainable' shrimp in order to minimize the environmental effects of shrimp aquaculture. Moreover, the Seafood Exporters Association of India (SEAI) and the Marine Products Export Development Authority (MPEDA) are supporting the export of shrimp, especially for ready-to-eat and ready-to-cook products.

Our Buyer includes companies from countries like Europe, US, UAE, Saudi Arabia, Vietnam, Australia, Japan, Netherlands, South Africa, China and South Korea. We are BRC certified and HACCP which enables us to target different geographies and increase our footprints. To support this growth, we have alongside embarked on several marketing initiatives and planning to participate in all major exhibitions.

I am grateful to you, our shareholders, who have shown unwavering faith in our strategy. I value their dedication and commitment to the tasks at hand towards the pursuit of our short and long-term goals. Also, I would also like to thank our regulators, esteemed partners, and every one of our customers for placing their trust in us. Finally, I would like to thank all my colleagues and their families, who have been true warriors during these most challenging times. We reaffirm our commitment to delivering quality growth and look forward to continuing the momentum we have built over these years.

Love and peace from us to you.

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Zeal Aqua Limited
(CIN: L05004GJ2009PLC056270)
At Olpad GIDC Pl No. 4,5,
Ta Olpad Surat - 394540

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. Zeal Aqua Limited, (hereinafter called the “company”). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my/our verification on test check basis of the M/s. Zeal Aqua Limited, books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2022 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by M/s. Zeal Aqua Limited for the financial year ended on 31st March, 2022 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made there under;

1. Industry Structure and Development

Overview of Current Trends

Shrimp are invertebrate marine animal having an elongated body that is often used as a food product. This is considered a nutritious since it includes proteins, selenium, vitamins, phosphorus, magnesium, copper, iron, and vitamin B12. Many of the health benefits associated with shrimp consumption are weight loss, age management, better bone strength, reduced menstrual pain, and the prevention of cardiovascular diseases.

Shrimp is considered one of the most commonly consumed seafood. In recent years, it gets popular among seafood lovers. Shrimp belong to the family Malacostraca, available in freshwater lakes and streams and deep and shallow waters. It is an invertebrate marine animal with a flattened and elongated body with long legs and antennae.

Shrimps are a rich source of phosphorus, antioxidants, proteins, selenium, copper, iron, magnesium, omega-3 fatty acids, vitamin B and D. It is also preferred for losing weight, relieving eye fatigue, lowering blood pressure, improving bone and brain health, and minimizing the chances of developing cardiovascular diseases. According to Renub Research report, Global Shrimp Market is expected to be US\$ 23.4 Billion by 2026.

Based on species, the India shrimp market has been segmented into:

- Penaeus Vannamei
- Penaeus Monodon
- Others

On the basis of the size, the India shrimp market can be divided into:

- Size 31-40
- Size 41-50
- Size 51-60
- Size 61-70
- Size >70
- Others

The regional markets for shrimp in India include Andhra Pradesh, West Bengal, and Gujarat, among others.

Global Scenario

Global shrimp production has continued to trend upward, with a panel of experts at the National Fisheries Institute's Global Seafood Market Conference predicting that global shrimp production will exceed 5 million metric tons (MT) in 2022.

Current predictions put the production at 5.011 million MT in 2022, a significant increase over the 4.569 million MT grown in 2021, which itself was an increase over the 4.086 million MT produced in 2020. Globally, shrimp production has seen a tremendous upswing – in 2015, global shrimp production didn't even reach 3 million MT.

Globally, shrimp are available in numerous species such as *L. vannamei*, *P. monodon*, and *M. rosenbergii*; these all are sold under the single term – pawns. These are popular in the international market, and many countries are encouraging shrimp production by giving incentives to farmers and offering fiscal reliefs. India, China, Vietnam, Indonesia, Thailand and Ecuador are some major shrimp producing country. Shrimp is a highly imported seafood from China because of farm-raised shrimp aquaculture. As per our study, The Worldwide Shrimp Market was US\$ 18.30 Billion in 2020. Due to the COVID-19 pandemic, the global Shrimp market size is estimated to be worth US\$ 56490 million in 2022 and is forecast to a readjusted size of US\$ 74840 million by 2028 with a CAGR of 4.8% during the review period.

Easy availability of shrimp and its high nutritional content are the main growth-inducing factors. They are an essential part of the different cuisines being one of the most traded species of seafood. With the growing demand for disease-free and stable shrimp,

India has become one of the largest exporters of shrimp to the United States and the European Union. One of the main trends seen in the India shrimp market is the growth of the food industry due to the growing demand for ready-to-eat food items. It is driven by factors including rapid urbanisation, shifting habits, hectic work schedules, and growing number of working women. As a result, the shrimp market in India is experiencing healthy production. In addition, the growing demand for shrimp globally has positively affected imports of shrimp from India. Moreover, the growing consumer health consciousness, rising disposable incomes, and improving living standards remain some of the other primary factors that are further increasing the demand for shrimps in India.

Indian Scenario

The majority of Shrimp production in India is driven by *Vannamei*, accounting for 90% of total production. COVID-19 induced lockdowns and disruptions in supply chain affected the entire Shrimp culture activities right from availability of Shrimp larvae, commencement of Shrimp culture non availability of raw materials in time for Feed production, fall in attendance of labour etc. In addition, the global Shrimp prices reduced due to reduction in demand in overseas markets like USA. As a result, the Shrimp exports from India went down by about 10%-12% compared to the FY 2019-20.

In the forecast period of 2022-2027, the market is projected to grow at a CAGR of 9.5%.

India has been the one of the largest producers and exporters for Aquaculture Shrimps, but the percentage for value addition in the overall exports is only 6%. Most of the Seafood exports from India are happening in the raw form, which has less risk and is easy for sending huge volumes. Although the unit value realization from these raw products is less, the bulk exports will ensure more turnovers.

India is exporting aquaculture products to almost 76 countries among the total 113 countries that consume Indian marine products. The top ten countries that purchase 95% of cultured marine products are USA, China, Japan, Vietnam, Canada, UAE, UK, Belgium, Netherlands & Russia.

Shrimp being a premium product is being preferred by the developed and developing economies and efforts are being made to build the brand image of Indian shrimp across the nations through international TV commercials, print or digital media, social media handles of MPEDA and by organising virtual webinars & buyer seller meets with importers in countries other than top ten aquaculture products importing nations for promoting the shrimp exports.

Hon'ble Prime Minister of India launched the Pradhan Mantri MatsyaSampada Yojana (PMMSY) on 10th September 2020 to "transform" the fisheries sector and add strength to the efforts of building an 'Aatmanirbhar Bharat'. The PMMSY is a flagship scheme for focused and sustainable development of the fisheries sector in the country with an estimated investment of Rs 20,050 crore comprising Central share of Rs 9,407 crore, State share of Rs 4,880 crore and Beneficiaries contribution of Rs 5,763 crore.

PMMSY will be implemented over a period of 5 years from FY 2020-21 to FY 2024- 25 in all States/Union Territories. This is the highest ever investment in the fisheries sector that will result in doubling export earnings to Rs 1,00,000 crore and generate about 55 lakhs direct and indirect employment opportunities in the fisheries sector over a period of next five years. The scheme is aiming to support farmers with various assistance and hence it is envisaged that the scheme will help in doubling the income of farmers.

SA survey of regional trends in production by contributors of the 2020 review revealed the following:

- Stocking density in most regions was mainly in the 20-40 PL/m² range. Only in the southern districts of Andhra Pradesh and in the states of West Bengal and Tamil Nadu, it was in the 41-60 PL/m² range.
- Crop durations were shortened to 110 days and even 90 days in most production regions. Wherever feasible, farmers did three crops a year or even four crops.
- Most production were for size 10-16g (61-100 count) while West Bengal and Odisha produced primarily 16-25g shrimp (41-60 count) and Gujarat targeted production of 25-33g shrimp (31-40 count)
- All regions reported that diseases are the most challenging during production. Less than 25% of production losses were due to diseases, said respondents from West Bengal, Odisha, Southern Andhra Pradesh and Tamil Nadu. Respondents from Gujarat, Northern Andhra Pradesh, West Godavari and Krishna said that 25-50% of production losses were due to diseases. WSSV was considered the most problematic, while EHP and WFD were ranked to be #2 and #3 concerns by those in Andhra Pradesh and Tamil Nadu. RMS was ranked to be the #2 concern in West Bengal and Odisha where EHP was ranked to be the #4 concern.
- Lockdown and farmgate prices of shrimp were flagged to be the most challenging aspects of production in 2020 by 75% of the respondents
- Cost of production was considered as a key constraint by 50% of respondents. Those in West Godavari, Southern Andhra Pradesh, Tamil Nadu and Gujarat said that cost of production was a challenge.

•Availability of credit was identified as a major challenge by respondents from Gujarat, West Bengal and Odisha.

•Respondents predicted that West Bengal, Odisha, Northern and Southern Andhra Pradesh and Tamil Nadu may produce more shrimp in 2021 as compared to 2020. West Godavari may maintain production as in 2020 and Gujarat may register a further decline in 2021.

Shrimp Farms

Farmed shrimp production in India for 2020 had declined by 19% from a record production of nearly 800,000 tonnes in 2019 to about 650,000 tonnes. While the COVID-19 pandemic and related lockdown contributed to the decline, continuing production challenges due to a host of disease problems had impacted production quite significantly.

In Gujarat

A report presented data- the major shrimp farming state in the west coast of India. In the past few years, Gujarat's production dropped from its peak of nearly 50,000 tonnes in 2017 to 23,000 tonnes in 2020.

Due to cooler weather, with rains in the middle of the growing season, most farmers only produce one crop a year. Its dependence on post larvae supply from hatcheries in the east coast and the shortage of migrant labour due to the pandemic were some of the reasons for the decline in production. The rapid expansion of farming in the past decade was another reason for the decline. Many farmers have nurseries and some of them are successful.

The introduction of disease resistant lines in 2020 helped in crop management amidst disease outbreaks. Black tiger shrimp is always favoured in the state since production is restricted to one crop a year. Jignesh predicted that the availability of specific pathogen free (SPF) black tiger shrimp in 2021 will result in large scale trials, but farmers would still prefer to go for shorter crops of 110-120 days to minimise their risk.

In India's shrimp farming industry, the first quarter (Q1) and early second quarter (Q2) of the year are commonly referred to as the summer crop, and this is the most active season for PL stocking. During February and March 2020, farmers were preparing to stock their ponds based on a normal PL supply situation.

Shrimp exports

MPEDA is implementing the National Residue Control Programme (NRCP) and monitors antibiotic residues in over 7,000 samples collected across the farmed shrimp value chain from hatchery, farm, feed and processing units. Anil Kumar, MPEDA, said Japan has removed the antibiotic testing for the export of black tiger shrimp from India. However, the requirement of many markets for frozen shrimp to be free of WSSV and other OIE listed diseases is emerging as a new market access challenge.

Marine products exports from India reached the all time high of US\$ 7,740 million during 2021-22, despite the heavy odds faced by the sector. The target for 2021-22 fixed by Department of Commerce, GoI, for this sector was US\$ 7809 million and marine products export achieved 99.12% of the target. The growth observed is 30% higher when compared to 2020-21 in US\$ value terms. The seafood export Compound Annual Growth Rate (CAGR) during the past decade stands as 8.23%.

During 2021-2022, India has exported marine products to 121 countries. USA continues to be the top destination for exports this fiscal year also. US has remained the top destination for seafood export for the past 11 years. The target fixed for US market during the fiscal year was US\$ 3021 million and the achievement is US\$ 3315 million.

China, again stood at number two position, a ranking it has retained during the previous 3 years despite the various trade challenges faced. Exports to China touched US\$ 1121 million against the target of US\$ 1021 million. Japan, stood at number three position, again retaining the same ranking for the past 3 years. Exports to Japan was US\$ 448 million against the target of US\$ 428 million. USA, China and Japan are top 3 favourite destinations of Indian marine exports. Exports to these three countries contributed 63% of our exports in US\$ value terms.

2. Opportunities & Threats

Opportunities:

India is the second-largest shrimp producer after China producing 9% of the world output and the demand for Indian quality is increasing day by day.

Though there is strong competition from Thailand and Vietnam, Indian shrimp withstand the diseases whereas the Thailand and Vietnam species struggle with a disease outbreak.

There is a climatic advantage for India as the tropical climate is more suitable for shrimp production. According to the study by Aquaculture Research, the survival and feed consumption was high and the species were more tolerant in 38°C to 41°C degrees centigrade.

India has a vast coastline which benefits the production of shrimps at the industrial level. The west coast contributed 62% whereas the east coast contributed 38% of the output.

The geographical setup of the country is also an added advantage for the shrimp industry. As per the Central Marine Fisheries Research Institute India has 3.56 million tonnes of marine fish landing in the year 2019 which is a great advantage.

We have vast storage and processing units which helps to retain the quality of the product.

The sophisticated supply chain system in India gives the required competitive edge for the producers.

The advanced infrastructure and logistics system in India helps the producer to market his product with ease to a distant geographical location.

Threats:

The volatile pricing for the products is not only eating away the profits of the producer but in some instances incurring a loss.

The establishment and compliance cost is high which is keeping small and medium investors away from the business.

India is extremely dependent on single species Vannamei shrimp and requires diversification in production of another species.

The middlemen and commission agents manage 40% of the business making it lack of traceability of the products.

India has very limited value-added processing capabilities.

Also despite, technical advancement and development of Specific Pathogen Free (SPF) seed, the possibilities of the shrimps getting affected by virus and diseases cannot be ruled out.

3. Segment-wise or product-wise performance

Your company has three business segments trading Shrimp medicines and feeds, Shrimp Farming and Shrimp processing during the financial year 2021-22. The company was engaged in Shrimp Farming with allied activities. The performances are reflected in the balance sheet.

4. Outlook

Indian shrimp industry has a very good scope to reach great heights and emerge as a global leader. The COVID crisis has triggered an Anti-China mindset throughout the world and it's a great opportunity for the Indian shrimp industry benefits. India needs to explore new business

The company has successfully implemented the nursery project which has resulted immense benefits to the company. Due to this project the production cycle of the shrimp has reduced resulting in the more production.

Also, Company is in process of getting the USFDA approval for catering to US markets. Thus, it would help the Company for better utilization of the plant and getting the benefits of economic of scales which would also improve the bottom line of the Company.

5. Risk and Concerns

Shrimp Farming like any other farming activity, is dependent on nature. Although all possible efforts are taken to mitigate the adverse effects of nature, but we do not have full control on it. Our product being a live product is also prone to various type of disease and so on. Seasonal production, low number of process house and perishable nature of product are always a matter of concern.

The company's operations might be adversely impacted due to incapacitation of sections of the global workforce due to exposure to the pandemic COVID 19, reduced productivity due to employee stress and impact on emotional well-being while under local lockdowns or quarantines, inability to provide work from home access to some employees due to logistical or security or contractual reasons. Demand for the company's product may be adversely affected not only in industry segments directly impacted by the pandemic – like hotels and hospitality, but across other segments as well due to a sharp slowing down of the world's major economies. This is likely to affect the company's earnings in the short and medium term.

6. Internal Control System

The Company has in place an adequate system of internal control commensurate with its size and nature of its business. These have been designed to provide reasonable assurance that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are authorized, recorded and reported correctly and the business operations are conducted as per the prescribed policies and procedures of the Company. The Audit committee and the management have reviewed the adequacy of the internal control systems and suitable steps are taken to improve the same.

STATEMENT ON RISK MANAGEMENT

Aquaculture is an industry of great diversity. We at **Zeal Aqua Limited** seek to minimize the adverse impacts of all kinds of risks, thus enabling the company to leverage market opportunities effectively and enhance long term competitive advantage. Consequently, any attempt to produce a simple framework for the identification of the most common risks is not easy, even within genera of animal or plant species. Our Risk Management Framework involves identification, analyses, evaluation, treatment, mitigation and monitoring all kinds of risks like Production, market related and pure risks.

Production risks are the principal concern in the daily routine of the farmer, as the production process is his sole responsibility. There are many and varied risks in the production process which can reduce profitability, compared with those which may occur in the subsequent processes of marketing and consumption.

Production risks can be conveniently categorized into (i) operational, (ii) technological, (iii) financial, and (iv) social risks.

Market Related risk to product quality can often be avoided through processing cooperatives. These are invariably geared to large institutional markets, such as the catfish industry in the United States, and the processors apply stringent quality control methods to the benefit of all producers.

The Board oversees Company’s processes for determining risk tolerance and review management’s action and comparison of overall risk tolerance to established levels. The framework is designed to enable risks to be identified, assessed and mitigated appropriately. Major risks identified by the businesses and functions are systematically addressed through appropriate actions on a continuous basis.

Pure risks describe a group of risks common to life and business in general, and are not specific to the aquaculture industry. Their occurrences are not selective, but the consequences of some of them have a priori relevance to the aquaculture industry compared with many other industries.

Pure Risk can be conveniently categorized into (i) Physical risk of nature, (ii) Social and political risk, and (iii) Liability.

Independent Auditor's Report

To,
The Members of
ZEAL AQUA LIMITED

Report on the Financial Statements

We have audited the accompanying standalone financial statements of the Zeal Aqua Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as “the Standalone Financial Statements”).

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of the affairs of the Company as at 31st March, 2022, the profit and the other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion:

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statement.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No.	Key Audit Matter	Auditor's Response
1.	Revenue Recognition To ensure accuracy of recognition, measurement, presentation and disclosures of revenues and related accounts.	Principal Audit Procedures <ul style="list-style-type: none">• We have assessed the Company's internal controls surrounding its revenue transactions;• We tested the key controls identified;• We performed substantive detail testing by selecting a sample of revenue transactions that we considered appropriate to test the evidence of effectiveness of the internal controls and adherence to accounting policies in recognising the revenue, and the rebates and discounts there against.

Information Other than the Financial Statements and Auditor's Report Thereon:

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the Standalone financial statements and our auditor's report thereon.

Our opinion on the Standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibility for the Standalone Financial Statements:

The Company's Management and Board of Directors are responsible for the matters stated in the Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit, and other comprehensive income, cash flows and changes in Equity of the company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures

responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143 (3) of the Act, based on our audit we report that:

a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid Standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

e) On the basis of written representations received from the directors as on 31st March, 2022 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022, from being appointed as a director in terms of Section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in “Annexure B”.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirement of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/provided by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanation given to us:

I. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 32 to the standalone Ind AS financial statements;

II. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses; and

III. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

“ANNEXURE B” TO INDEPENDENT AUDITORS’ REPORT

(referred to in paragraph f) under ‘report on other Legal and regulatory requirements’ section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act (2013) (“the Act”)

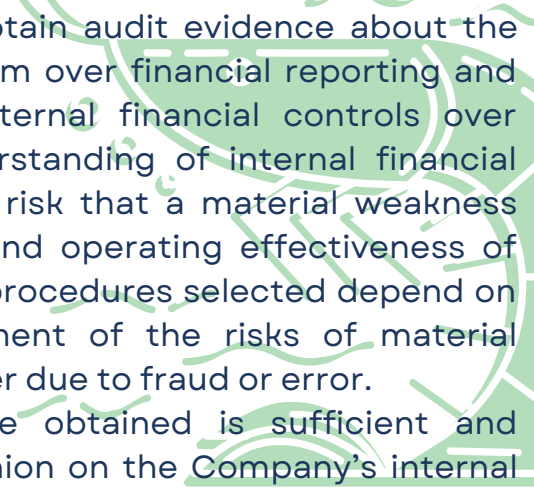

We have audited the internal financial controls over financial reporting of the Zeal Aqua Limited (“the Company”) as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

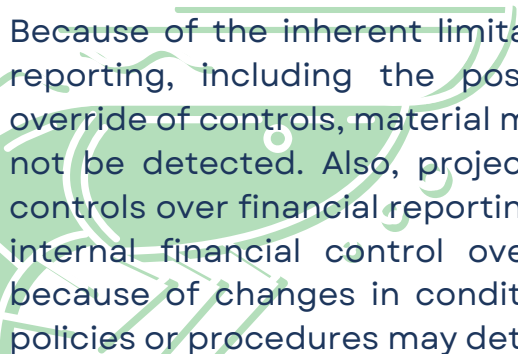

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements for the year ended March 31, 2022

27. Basis of Preparation of Financial Statements

27.1 Corporate Information

This financial Statement Comprise financial statement of Zeal Aqua Limited (“the Company”) for the year ended 31st March, 2022. The Company was incorporated on 06th March, 2009 under the provision of Companies Act, 1956. The Company is into business of Farming, Developing and Harvesting of Prawns. The Company is listed on BSE Ltd.

27.2 Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (‘Act’) read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

27.3 Basis of preparation and measurement

The financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

Notes to the Financial Statements for the year ended March 31, 2022

27.4 Notes to the Financial Statements for the year ended March 31, 2022

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

28. Significant Accounting Policies

➤ Property, Plant and Equipment (PPE)

On adoption of Ind AS, the Company retained the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP and used that as its deemed cost as permitted by Ind AS 101 'First-time Adoption of Indian Accounting Standards'.

PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of PPE includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition, PPE are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and useful lives.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over the useful lives, using the written down value method ("WDV"). Management believes based on a technical evaluation (which is based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties

Notes to the Financial Statements for the year ended March 31, 2022

and maintenance support, etc.) that the revised useful lives of the assets reflect the periods over which these assets are expected to be used, which are as follows:

Asset	Useful live
Buildings including factory buildings	3-30 years
General Plant and Machinery	5-15 years
Furniture and Fixtures	3-10 years
Office Equipment	3-5 years
Vehicles	4-10 years
Computer and Data Processing Units	3-6 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in profit or loss. Fully depreciated assets still in use are retained in financial statements.

Title deeds of all immovable properties held in the name of company.

During the relevant period no assets taken on lease.

Up to the date of 31.03.2022 none of fixed assets acquired through business combinations.

➤ **Intangible assets**

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in profit or loss.

There is no intangible assets under development. During the year company has no intangible assets whose completion is overdue or has exceeded its cost compared to original plan.

Notes to the Financial Statements for the year ended March 31, 2022

➤ **Capital work-in-progress**

Capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

During the year company has no capital work in progress whose completion is overdue or has exceeded its cost compared to original plan.

➤ **Details of Benami Property held**

There is no proceeding has been initiated or pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

➤ **Non-derivative financial instruments**

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and Cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Financial Statements for the year ended March 31, 2022

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in Other Comprehensive Income.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments recognised by the Company are measured at the proceeds received net off direct issue cost.

Off-Setting of Financial Instruments

Financial assets and financial liabilities are off set and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

➤ Impairment

Financial assets (other than at fair value)

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Notes to the Financial Statements for the year ended March 31, 2022

PPE and intangibles assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

➤ **Inventories**

Inventories are valued at lower of cost (on First in First out Basis) and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including all taxes and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

➤ **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and the costs incurred or to be incurred in respect of the transaction can be measured reliably.
- Income related to Export benefits like duty drawback and sale proceeds from meis licences is recognised as and received.

Revenue is reported net of discounts including Goods and Service Tax.

Notes to the Financial Statements for the year ended March 31, 2022

Rendering of services

Revenue from services are recognised on a prorated basis over the period or as per the terms of the contract.

Interest Income

Interest income from financial assets is recognized when it is probable that economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that asset's net carrying amount on initial recognition.

Dividend

Dividend income from investments is recognised when the unconditional right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

➤ **Research and Development expenses**

Research expenditure is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalised. Tangible assets used in research and development are capitalised.

➤ **Leases**

Leases are classified as finance leases whenever the terms of lease transfer substantially all the risks and rewards of ownership to the lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

(i) Operating Lease:

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding inflationary increases where rentals are structured solely to increase in line with

Notes to the Financial Statements for the year ended March 31, 2022

the expected general inflation to compensate for the lessor's inflationary cost increases, such increases are recognised in the year in which the benefits accrue) provided by the lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

(ii) Finance Lease:

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

➤ **Employee benefit expenses**

Employee benefits consist of contribution to provident fund, superannuation fund, gratuity fund and compensated absences.

Post-employment benefit plans

Defined Contribution plans

Payments to defined contribution retirement benefit scheme for eligible employees in the form of superannuation fund are charged as an expense as they fall due. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made.

The Company also makes contribution towards provident fund, in substance a defined contribution retirement benefit plan for qualifying employees. The provident fund is deposited with the Provident Fund Commissioner which is recognized by the Income Tax authorities.

Defined benefit plans

The liability or asset recognised in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the said obligation is determined by discounting the estimated future cash outflows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

Notes to the Financial Statements for the year ended March 31, 2022

The interest income / (expense) are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest income / (expense) on the net defined benefit liability or asset is recognised in the Statement of Profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Gratuity - The Company has an obligation towards gratuity, a defined benefit plan covering eligible employees. The plan provides for lump sum payment to vested employees on retirement, death while in employment or on separation. Vesting occurs upon completion of five years of service. The liability, which is determined by means of an independent actuarial valuation, is partly funded with LIC by the Company.

Short term employee benefit and other long-term employee benefits

Compensated absences which accrue to employees and which can be carried to future periods but are expected to be encashed or availed in twelve months immediately following the year end are reported as expenses during the year in which the employees perform the services that the benefit covers and the liabilities are reported at the undiscounted amount of the benefits after deducting amounts already paid. Where there are restrictions on availment of encashment of such accrued benefit or where the availment or encashment is otherwise not expected to wholly occur in the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method.

➤ **Foreign currency translation**

The functional and presentation currency of the Company is Indian rupee (INR).

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

➤ **Borrowing cost**

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings. General and specific borrowing costs attributable to acquisition and construction of any qualifying asset (one that takes a substantial period of time to get ready for its designated use or sale) are capitalised until such time as the assets are substantially ready for their intended use or sale, and included as part of the cost of that asset. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed beyond reasonable time due to other than temporary interruption. All the

Notes to the Financial Statements for the year ended March 31, 2022

other borrowing costs are recognised in the Statement of Profit and Loss within Finance costs of the period in which they are incurred.

➤ **Segment reporting**

Information regarding primary segment reporting as per Ind-AS 108.

The company is engaged in only one segment of Aqua culture. Accordingly, the segment revenue, segment results, segment assets and segment liabilities are reflected by the financial statement themselves as at and for the financial year ended 31st March, 2022.

➤ **Income tax**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current and deferred taxes are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax

Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of a deferred tax asset shall be reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Notes to the Financial Statements for the year ended March 31, 2022

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets and liabilities are off set when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

➤ **Accounting of provisions, contingent liabilities and contingent assets**

Provisions are recognized, when there is a present legal or constructive obligation as a result of past events, where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. Where the effect is material, the provision is discounted to net present value using an appropriate current market-based pre-tax discount rate and the unwinding of the discount is included in finance costs.

Contingent liabilities are recognised only when there is a possible obligation arising from past events, due to occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Company, or where any present obligation cannot be measured in terms of future outflow of resources, or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an on-going basis and only those having a largely probable outflow of resources are provided for.

Contingent assets are not recognised in the financial statements unless an inflow of economic benefits is probable.

➤ **Earnings per share (EPS)**

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary equity shares outstanding during the year.

Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

During the year shares were splitted accordingly EPS is calculated on per splitted share.

➤ **Significant accounting judgements, estimates and assumptions**

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

Notes to the Financial Statements for the year ended March 31, 2022

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, apart from those involving estimates, which have the most significant effect on the amounts recognised in the financial statements.

Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

Inventories

Management estimates the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

Defined Benefit Obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as attrition rate, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Notes to the Financial Statements for the year ended March 31, 2022

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain assets.

Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Fair value hierarchy

Ind AS 107, 'Financial Instrument - Disclosure' requires classification of the valuation method of financial instruments measured at fair value in the Balance Sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements). The three levels of the fair-value-hierarchy under Ind AS 107 are described below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Notes to the Financial Statements for the year ended March 31, 2022

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

Financial risk management

"The company" Board of Directors has overall responsibility for the establishment and oversight of the company' risk management framework. Key roles and responsibilities are defined in line with risk management plan and are reviewed at regular interval. This self-regulatory process and procedure ensures efficient conduct of business in micro and macro risk environment.

The Company has exposure to the following risks arising from financial instruments

- Credit risk
- Liquidity risk
- Market risk"

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade and other receivables and cash and cash equivalents. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount

Trade receivables

"The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Interest rate risk

"Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss."

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

(₹. In Lacs)

Particulars	31 st March 2022	31 st March 2021

Accordingly, the Board recommends passing of the Resolution at Item No. 4 of the Notice as a Special Resolution.

Except Mr. Cyrus Dinsha Bhatena, none of the Directors or Key Managerial Personnel (KMP) of the Company or their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No.4.

Item No. 5

As per Section 149(10) of the Companies Act, 2013 (Companies Act, 2013), an Independent Director shall hold office for a term of upto five consecutive years on the Board of a Company, but shall be eligible for re-appointment on passing a special resolution by the Company for further term of upto five consecutive years on the Board of a Company.

In line with the aforesaid provisions of the Companies Act, 2013 and in view of long, rich experience, continued valuable guidance to the management and strong Board performance of Mr. Shahzad Yazdi Gandhi , it is proposed to re-appoint them for the second term as an independent director on the Board of the company for a period of five years w.e.f. 29th December, 2022 to 28th December, 2027 and In the opinion of the Board, Mr. Shahzad Yazdi Gandhi fulfills the conditions specified in the Act.

The Board considers that their continued association would be of immense benefit to the Company and it is desirable to continue to avail services of Mr. Shahzad Yazdi Gandhi as an Independent Director. Accordingly, the Board recommends passing of the Resolution at Item No. 5 of the Notice as a Special Resolution.

Except Mr. Shahzad Yazdi Gandhi, none of the Directors or Key Managerial Personnel (KMP) of the Company or their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No.5.

Item No. 6

The Securities and Exchange Board of India (“SEBI”), vide its notification dated November 9, 2021, has notified SEBI (Listing Obligations and Disclosure Requirements) (Sixth Amendment) Regulations, 2021 (“Amendments”) introducing amendments to the provisions pertaining to the Related Party Transactions under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”). The aforesaid amendments inter-alia included replacing of current threshold i.e. 10% (ten percent) of the listed entity’s consolidated turnover, for determination of material Related Party Transactions requiring prior Shareholders’ approval with the threshold of lower of 1,000 crore (Rupees One thousand crore) or 10% (ten percent) of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity. Zeal Aqua Limited (“the Company”), being an aqua company, dealing in harvesting and trading of shrimp, participates in the dealing and contracting with different entities in Zeal group and partners in respective entities’ growth and transformation journeys.

In view of the changes in the threshold for determining the related party transactions that require prior shareholder approval and considering the fact that the list of related parties will change dynamically with no action on the part of the Company and to facilitate seamless contracting and rendering/availing of product between the Company and “related parties”, the Company seeks the approval of the shareholders to approve entering into contracts/arrangements within the thresholds and conditions mentioned in the resolution. All the contracts/arrangements and the transactions with “related parties” are reviewed and approved by the Audit Committee.

The details of transactions that require approval are given below:
