With the addition of the fresh cases, the total COVID-19 case tally in Ahmedabad has increased to 2.38 lakh. The total tally has reached 1.43 lakh in Surat, 78,651 in Vadodara, and 20,511 in Gandhinagar. According to the health department, there are over 160 active cases of the virus in Gujarat. Of this, four patients are critical and have been put on ventilator support. So far, 8,15 lakh patients have been discharged in the state after being treated for the viral infection. In fact, 25 patients were discharged in the past 24 hours. The state's death toll due to COVID currently stands at 10,079. Over 4.63 lakh people were administered vaccines on Tuesday until 4 pm. Of it, 2.42 lakh belong to the 18-44 age group.

The company which has an expansive network of distributors across the country and a global footprint in over 6 nations, wants to encourage more and more youth to join its family. In the light of World Youth Day, Vestige is urging its distributors to pledge to onboard five youth to set them on the path of financial freedom.

Speaking about the newly launched youth outreach initiative, Mr. Gautam Ball, Managing Director, Vestige Marketing Ltd said, "India is a young nation with a booming youth population making it one of its most invaluable resources.

Vestige initiates New Youth Outreach to Mark World Youth Day

Ahmedabad : Vestige Marketing Ltd, India's only home-grown direct selling brand, is commemorating World Youth Day by encouraging the country's youth to start their journey of financial independence through self-reliance.

The company which has an expansive network of distributors across the country and a global footprint in over 6 nations, wants to encourage more and more youth to join its family. In the light of World Youth Day, Vestige is urging its distributors to pledge to onboard five youth to set them on the path of financial freedom.

Speaking about the newly launched youth outreach initiative, Mr. Gautam Ball, Managing Director, Vestige Marketing Ltd said, "India is a young nation with a booming youth population making it one of its most invaluable resources.

Training them, skilling them and setting them on the path to financial freedom through self-reliance can unlock miracles for the national economy. At Vestige, we intend to do just that by onboarding more of them to mark World Youth Day." Putting the impetus on the need to skill the youth for national growth, he added, "While India has one of the largest eligible working populations in the world, it is yet to cover the employment gap. Relying on government or public sector undertakings to provide employment to our youth is not enough. This is why our youth need to be adequately educated, skilled and trained to become the next generation of micro entrepreneurs. This needs to be done at the grassroots level to ensure inclusivity and financial growth both personally and financially." (1-7)

RBSK data to be used for comorbidity scan in Gujarat

AHMEDABAD: About 1.6 crore children and teen are covered under the Rashtriya Bal Swasthya Karyakram (RBSK) (National Child Health Programme) in Gujarat. The data will be used for assessing children with comorbidities in preparedness of the possible third wave of Covid-19 pandemic, said senior health department officials. The School Health

children with congenital disorders of heart, kidney, etc. along with thalassemia, HIV, and diabetes among others. "As the third wave is likely to affect children more - the logic is, they are sans the protection of vaccination and thus vulnerable to the viral infection - the attempt is on in every district to identify the vulnerable population and take preventive measures. The RBSK data already is a good indication of the prevalent comorbidities. The teams will also carry out extensive survey, identify the children and provide health facilities," said a senior state health department official. The School Health Programme is also extended to all below 18 years of age recently, bringing all children and teens under the umbrella for free health services at government hospitals.

Out of 1.59 lakh children screened, the officials had found 1,068 children with severe co-morbidities, who were put in 'high-risk' category. They included
